Elizabeth Thasiah is the Program Manager for Foster Parent Recruitment, Development and Support for the County of Ventura, Children and Family Services. She guides and directs the county's Foster VC Kids campaign to recruit and support high quality foster caregivers within Ventura County. With 1000 children in foster care and only 250 active licensed foster homes, Thasiah is leading the county in a new public awareness campaign and quality improvement plan to support unconditionally committed, quality caregivers. She is currently reshaping the county's engagement practices with businesses, faith leaders and foster caregivers.
